## It's all about choice!

*Kang Yang's circuit board supports and spacers are best in class products designed to hold a PCB to a chassis or base inside an electronic apparatus.*

*Most supports are designed to be installed by hand, and do not require assembly equipment. Supports are available in nylon, aluminum, brass, steel and rubber to form the largest selection of options in the industry. Stackable supports allow a fast array of design options.*

Kang Yang produces an extensive line of PCB Spacers in both metric and imperial spacing. In the unlikely case you cannot find the spacing height you require for your application, we can support you with a custom spacing via special order. ( a minimum order quantity may apply)

Our wide spacer range is all about choice, whether it's a hex standoff for high-critical strength, or a PCB support for various locking methods and hole sizes. We have the specialist knowledge, products, and ability to support your Circuit Board Hardware needs.

### *Satisfaction guaranteed:*

*All our products are available and can be ordered from us as a free sample. It's the perfect way to find out if your choice will fit your needs.*

## Apply now for your FREE catalog!

The best things in life are free:

You can order our latest catalog for free by leaving your contact details on our e-mail address: [info@kangyang-europe.com](mailto:info@kangyang-europe.com) or click on the miniature catalog below. You can also call us on [+31 \(0\)345 651937](tel:+3120345651937)

*Kang Yang originates from Taiwan and has an excellent reputation for the design and manufacture of affordable standard and custom rubber metal and plastic components*

[YES, I WANT ONE!](#)

## Spacer Color Options

Most Circuit Board Supports are manufactured by us in Nylon 6/6 and can be dyed most any color for identification purposes.

Dyed parts cannot be color matched. (ask for our options) In general our spacers are standard available in black or nylon natural color (milky white)
